

League of American Bicyclists Smart Cycling Course!

Knowing how to ride safely also means knowing the laws, rules of the road, and principles of traffic law. It also means ensuring your bicycle is in good working order, how to share trails and sidewalks, and what to do in the event of a crash.

This curriculum offers in-depth details for new and experienced riders on how to ride more safely, confidently, and more often in various terrains and climates. This class is geared more towards the experienced rider and consists of a 3-hour classroom training session as well as a 4-hour outdoor riding session, to practice your newly learned skills.

WHEN:

Classroom training Thursday evening, 2/7/2019, 6 - 9 pm

Outdoor cycling session is Saturday afternoon, 2/9/2019, 1 - 5 pm

You must attend both sessions.
